HOW DEPOSIT UNLOCK WORKS

The Home Builders Federation and its members have joined together to create a housebuilder owned insurance scheme, with insurance provided by Gallagher Re. This means that they offer mortgage lenders 35% protection on their mortgages, so that they can lend to customers at 95% on new build housing.

Usually, lenders take out insurance on mortgages that might carry a higher

risk, such as first-time buyers with limited deposit. The insurance means that lenders can recoup some costs if the home is repossessed, however, this can be expensive for lenders. Deposit Unlock overcomes this as housebuilders pay for the insurance, not lenders.

Customers only need to put down a 5% deposit and can purchase a property up to £833,250* with no restrictions on location, subject to lender's approval.

Deposit Unlock is currently available with participating bank lenders including Nationwide and Newcastle Building Society**.
